

PRACTICAL MISSIONS cohort

PMc exists to evangelize the lost, make disciples and plant churches in Italy where today less than 1% of the 60 million people that make up Italy are evangelicals with a healthy understanding of the Gospel, God, salvation and the church.

PMc VISION TRIP to ITALY

PMc exists to evangelize the lost, make disciples and plant churches in Italy where today less than 1% of the 60 million people that make up Italy are evangelicals with a healthy understanding of the Gospel, God, salvation and the church. The situation is dire, but we believe the Lord Jesus is calling people unto Himself from every nation, including Italy.

Practical Missions Cohort came into existence in order to involve more of God's people in His mission in Italy. One avenue of participation for the US church is our PMc Vision Trips.

PMc Vision Trips are a great opportunity for church leaders to come and experience first-hand the PMc ministry in Italy. The trips are designed to accommodate 4-5 people for 5 days and 4 nights. The cost is *very affordable*, and the benefits are *numerous*. Together we do some real outreach to the local Italian community through bulk literature distributions and kids park ministry. You will meet some local Italian believers and experience the beginnings of a new Italian church plant. We share meals together. We share our lives. We serve Jesus in practical ways while we talk about Italian culture and other ministry opportunities with PMc. We pray together and enjoy the sweet fellowship of the saints.

We warmly invite you to consider bringing a small group from your local church to come experience Italy and the PMc ministry in Venezia Mestre this year! To set up your trip please contact us for more information at info@practicalmissions.org. God bless you!
